1 What company for the last 25 years has done so much to promote the building of homes in Redwood City and throughout the county? They furnish you the money and you build your home according to your own ideas and plans and then pay for it like paying monthly rent. You can pay more if you wish to at any time—and then you pay interest only on the unpaid balance. Loans are made on the Definite Contract plan, guaranteed to be paid off as per contract if monthly payments are made punctually. You know from the start just what you are to pay, how you are to pay it and for what time. The shares of this company are a good safe investment. Give the name and office address of this company.

2 Who are the people who make your title clear in this county? They search all titles except those to the next world. Their care and diligence, coupled with their neat, legible and accurate abstracts, have made their work the standard in that profession. They have a full set of the records, kept up to date, dating back to the beginning. Have been in the business here since 1874. Any one you may ask will tell you that they are wholly reliable. Ready to make your abstract or certificate of title on short notice. Also in position to furnish abstracts in compliance with the government regulations of the new Federal Loan Act. What is the name and address?

3 Who is the real estate man in this city who is agent for the sale of Turlock and Modesto irrigated lands? Land, land, land—everywhere the cry is "Back to the land." The man who gets a good investment in land now is sure to reap a profit. There is only one crop of land; the free lands are all gone and values are advancing everywhere. This real estate man has been doing business in this city for 15 years. He has improved and unimproved city properties for sale ,also ranches and acreage. He rents houses, collects rents, is a notary public and attends to conveyancing. He writes fire insurance. His name is plain to any one who can "read." Give his name and address.

4 Who is the man to see when you want to have your automobile washed and brightened up a bit? He has a big garage for storage, and he keeps a supply of gasoline, oils, tires and accessories. He has a service car. It is the handiest place in the city to leave your car and the rates are very reasonable for storage and service of all kinds. He has been running this garage one year, and the people keep him pretty busy. He can sell you new tires and save you money. His name begins with the alphabet. Give the name and location.

5 If Elijah were alive today there would be no ravens to feed him. That brand of ravens has gone to roost forever. The only bird that will feed you now is the Eagle on the American Dollar. Gather these Eagles and then cast about for the best place to make them do their full duty. This number introduces a grocer who is making a collection of these dear little birds—bidding high for them. He has the good things that go to make up high living at low cost. He has been in the grocery business here for 15 years. He has one of the most central locations in the city, and one of the largest stocks. He spells his name with five letters—the letter "e" appearing twice. What is the name and address?

6 When you get tired of eating "rough stuff" what is the name and address of this restaurant that comes into mind so readily? It is one of the most popular places to eat in Northern California. They have the chefs that know how to meet the ecentricities of the human appetite. There are two departments—one for the ladies and their escorts and one for gentlemen. Wherever you appear you are sure of getting the best there is in the shop—which is the best there is in anybody's shop. On Sunday lots of people get in their cars and drive down and eat dinner with them—give the cook a rest at home. When you are out late at night remember there is always something good and warm waiting for you here. What is the name and address? Eight family booths—and dining room with seven tables.

7 What drug store is this that has so many names? One of these names comes to it by reason of a certain line of remedies and sundries of which it has the exclusive sale in this city. They are put on the market by a certain large co-operative jobbing concern that has its headquarters in Boston. It is a Latin name the meaning of which in English means "King of All." This name on any article you buy will always be a guarantee of quality. They can not afford to place it on inferior goods. This is the drug store that has been the reliable pharmacy for many years. It has everything for your health and good looks. What is the name and address? Both names please.

8 If you want to eat good bread, life-giving, nutritious bread, made of first quality flour and baked in the most finished perfection, you should eat the bread that comes from this bakery. You may think you are eating good bread but if you are eating any other kind you are not eating the best. This bread is made clean, baked clean and sold clean. Two delivery autos take it out all over the city each day and if you will watch where they stop you will discover where the best families live. They ship it out to surrounding towns. Their pies, cakes, cookies, rolls, and other pastry are superior, too. Have been running this bakery six years. Fronts east. Give name and address.

9 Vulcanizing and tire repairing is an art in the rubber industry which is disgraced by inefficiency. This number will introduce a plant that was established the first of this year in this city by a man who has had plenty of experience; and he has gained a large share of the work from automobile owners and garages of this city and county. It is a modern steam plant, unexcelled in equipment—prepared to take care of all branches of the industry. He makes the prices right and guarantees his work. He sells Savage and Fisk tires, and tire accessories of all kinds. Give his name and address.

10 Who are the people in Redwood who put the "wear" in hardware? They have been selling hardware to the people of this city and surrounding country for 14 years. Of course you have them "spotted." They have one of the best arranged hardware stores in California. They are distributors for Aeromotor windmills, Petaluma incubators, Acme Quality paints and a lot of other superior lines of merchandise. They have fine cutlery, garden tools, rope, nails, wire netting fishing tackle, guns, pistols, ammunition, stoves and ranges, tinware, roofing, pumps and pipe, pipe fittings, tools, implements, builder's hardware, house furnishing goods, implements, paints, oils and glass. What is the name and address?

11 To whom do you go for your cleaning and dyeing when you have some delicate fabric you are not willing to entrust to the ordinary establishment? The French cleaning process is one of the important textile discoveries of recent years but the process is quite complex and difficult. It needs experience and proper machinery. This is the most extensive cleaning works in San Mateo county. They clean all outer garments and make a specialty of fine work. Every garment is antiseptically treated. Their patronage extends over the whole Peninsula, branches in Palo Alto, San Mateo and Redwood City. Four autos are required to take care of their delivery system. What is the name and address?

12 Did you ever have a fit? This inquiry is not meant as a bit of impertence but is made from the tailor's standpoint. Here we introduce a custom tailor who has been a long time following his profession—located in this city only a short time ago. He will take your measure and make up a suit that he will guarantee to fit you perfectedly. He is an artist behind the shears. You will find him on the ground floor in a very central location. He will do your cleaning and pressing, repairing, remodeling—and he will al-

WILL PLANT TOBACCO ON ATHERTON LANDS

The beautiful 100 acre tract of land located near the residence of Louis Stern at Atherton and owned by Mrs. L. H. Barney, has either been sold or leased for a term of years to F. and M. Arrmichalian of San Francisco for the purpose of raising Turkish tobacco.

George Michaelian began last year to raise tobacco a mile below Mayfield and has met with wonderful success.

F. and M. Arrmichalian, brothers, prominent in the Armenian colony of San Francisco, have been carrying on negotiations with Judge E. F. Fitzpatrick, who has the matter in hand and who is the legal adviser of Mrs. Barney.

It is an assured fact that the successful growing of genuine Turkish tobacco in certain sections of this peninsula is possible, as has been demonstrated by the Mickaelian interests.

That the most up to date methods known to the culture of tobacco will be employed in this new field at Atherton is assured, as there will be ample capital behind this transaction.

The tobacco to be raised will be what is known as "Turkish tobacco" being used in the manufacture of Turkish cigarettes.

The selection of this choice tract of land was made only after a very exhaustive research of soil condtiions, etc., this together with the ideal climatic condtiions along the peninsula, led to the choice made by Messrs. Arrmichalian.

KNIGHTS OF COLUMBUS WILL CONFER DEGREES

The second and third degrees will be exemplified at San Mateo, tomorrow, Sunday, at the Knights of Columbus Hall. Joe Scott of Los Angeles and John J. O'Toole of San Francisco will be in charge of the Degree Work. A number of the officers at Camp Fremont, Menlo Park, will be among the class. Some of the prominent men of the county will take the degrees.

CAMP CARPENTER MUST PAY FOR SUPPORT OF CHILDREN

Judge Buck made a court order in the case of Elizabeth Barnes against George E. Barnes, directing Mr. Barnes to pay to the plaintiff temporary alimony in the sum of $60 a month. Barnes is a carpenter employed in the construction work at Camp Fremont, and has been a resident of Redwood City for the past two months. Three little children form the main reason for the court allowing this sum of alimony. Joseph J. Bullock represents Mrs. Barnes, and Albert Mansfield apepared for Mr. Barnes.

LOCAL SOUTHERN PACIFIC AGENTS ARE TRANSFERRED

F. B. Sherman, for many years Southern Pacific agent at Belmont and Menlo Park and recently agent at Redwood City, has been appointed San Mateo agent for the company and will assume his new duties on Thursday. L. D. Jones, who was placed in temporary charge of the San Mateo station following the transfer of Agent Montague to Palo Alto, will become agent at Redwood City. Mr. Jones arrived here yesterday and has taken charge of the local office.

LOCAL ANGLERS RETURN FROM SUCCESSFUL OUTING

P. P. Chamberlain, J. F. Johnston, Cornelius Cullen and A. D. Walsh returned from a fishing trip to Eel river yesterday. The party had a delightful time and were successful in catching a number of salmon. There is a big run of salmon up the river at present so the Redwood City contingent, who are all expert anglers, had splendid sport. The fish they caught ranged all the way from two to eight pounds in weight. The honor of catching the largest fish fell to J. F. Johnston who landed an eight pound beauty. A number of large saimon were brought to town by the party.

REDWOOD TO HAVE WHIST CLUB

On Thursday night, November 8th a whist club, to be known as the Mount Carmel Whist Club, will be organized. The members of the club will meet regularly twice a month on the second and fourth Thursdays. The game will commence at 8 p. m. sharp. A valuable gold watch will be awarded to the holder of the highest score of the season, which will end with the first week of Lent. Six valuable prizes will be awarded each night for the holder of the highest scores of the evening. Mrs. Con. Cullen is chairman of the committee on prizes for the opening night. All are welcome and a delightful time is in store for those who attend.

Score card 25 cents.

BIG DECREASE FOR COUNTY TAXPAYERS

Tax-Collector A. McSweeney, has received his official charge for the collection of the 1917 taxes which amounts to $860,188.00 as against $910,000.00 for th year 1916, a drop of approximately $50,000.00 over the previous year. This amount shows that the Supervisors made a decided cut in the tax rate all over the County, affecting materially every District with the exception of one or two places where the special school taxes have caused a slight raise.

The Improvement District formed in Lomita Park, provided under the State Law for side-walk work, increased the tax rate in that District $8.50 on each $100 on real estate.

The number of assessments of the County has jumped 30,118 in 1916, to 36,178 for this year, an increase of over 6,000 assessments.

MORE NATIONAL ARMY MEN LEAVE FOR TRAINING CAMP

Many residents of Redwood City went up to San Mateo yesterday to see San Mateo County's contingent of young men entrain for Camp Lewis. Although 62 men were slated to entrain quite a number were excused at the lost moment and only 50 men left for the camp.

San Mateo turned out as usual and gave the boys a good send-off. All the grammar and high school students were given a recess and the high school cadets band and school children participated in the farewell demonstration.

The local board today received from the district board at San Rafael a list of four more men who have been certified for the draft. They are:

George C. Gianola, Pescadero.
John Miramontes, Halfmoon Bay.
James Nemas, Burlingame.
Alexander S. Blanc, Jr., Burlingame.

Although Miramontes has been certified by the district board, he will not be compelled to entrain as he was recently discharged for physical disability by the local board.

COASTSIDE COUPLE AIR FAMILY TROUBLE IN COURT

The divorce action of Anna Cuneo against John Cuneo, well-known residents of Halfmoon Bay, was tried on Wednesday, before Judge Buck. A large number of well-known people from the coast-side were in court, a large number of witnesses having been subpoened. This case has attracted considerable notoriety, in part due to another suit filed by Mrs. Cuneo, to impress a trust upon certain land, the Cuneo ranch, which suit is now pending in court.

The trial lasted the entire day, and when the evidence was taken, and the case submitted, Judge Buck took the matter under advisement, and to date has not rendered his decision.

Joseph J. Bullock and Phil J. Strubel are attorneys for Mr. Cuneo, and Anthony Devoto and H. W. Walker represent Mrs. Cuneo.

LEE T. ROSS RETURNS HOME FROM CAMP LEWIS FRIDAY

Lee T. Ross, who went with the third contingent of San Mateo county men to Camp Lewis two weeks ago, arrived home yesterday having been rejected by the medical board at the camp. Mr. Ross will be at his desk in the office of Ross & Ross this morning. He is the junior member of the well-known law firm.

FATHER DONOHOE TO SERVE CITY PARISH

Father James P. Donohoe, for some time the assistant pastor of Mount Carmel church, received word from Archbishop E. J. Hanna on Thursday announcing his appointment as the assistant pastor of St. Vincent de Paul's church in San Francisco. This parish is one of the richest in the city. It includes the expositiou grounds, so dear to all Californians. The parish is very large and he will have much work to do.

During his stay in Redwood City he has made many friends by his zeal and devotion to his sacred calling and hard work among his flock. Father Donohoe is a devoted priest, an untiring worker and a theologian of marked ability.

He carries with him the best wishes of the people of Redwood City to his new field of energy. He will leave here on November 9th to assume his new duties in the city.

His successor will be here next week to take up the work begun by Father Donohoe in organizing the young men's sodality.

COUNTY'S LIBERTY LOAN QUOTA OVERSUBSCRIBED

Our county as usual made good. We may well feel proud of our record in the second Liberty Loan campaign. Figures, while not complete, show we have subscribed to the issue $534,000, which exceeds our minimum by $28,000. Then, it must not be forgotten, that Redwood City as usual distinguished itself. $123,800,00 was subscribed through the First National Bank and $48,450 through the Redwood City Branch of Bank of Italy.

THANKSGIVING DAY TO MARK CAMP CLUBHOUSE OPENING

Thanksgiving Day will mark the formal opening of the Camp Fremont Clubhouse ,which the San Mateo county families are supporting with splendid enthusiasm. Mrs. Lewis P. Hobart, the county chairman of the National League for Women's Service has appointed as her immediate staff of assistants Mrs. Perry Eyre, vice-president; Mrs. Selah Chamberlain, treasurer; Mrs. Max Rothchild, chairman of canteen service; Mrs. A. L. Stone, chairman of furniture committee. All gifts of furniture should be made through Mrs. Stone, notifying her before goods are shipped to the clubhouse.

The project of opening a clubhouse has met with unanimous approval and everything is being done to promote this enterprise. Most of the furniture has already been donated. The clubhouse with its acreage is to be devoted to all the uses that any first-class country club could offer in the way of comforts, conveniences and some luxuries. The ladies have taken the Rothchild home near Sacred Heart Convent and have transferred it into a cozy club house.

FINDS FAITHLESS SPOUSE HOLDS TITLE TO PROPERTY

Vladimer V. Alexandrof has commenced an action in the superior court against Eufrosinia Rose V. V. Alexandrof and others to quiet title to four lots at Granada.

Plaintiff is the Russian clergyman who arrived recently from the old country where he acted as interpreter for the Root Commission in Russia. Before going to his old home he was pastor of the Russian cathedral in San Francisco. He left his wife and children in the city and went to Russia last Spring at the call of his country. When he arrived in San Francisco in September he discovered that his wife had eloped with a Russian clergyman whom he had befriended before leaving California.

Mrs. Alexandrof took with her in her flight $18,000 which he had deposited in their point names in a San Francisco savings bank. When last heard from the erring wife was in Chicago. Plaintiff has commenced similar suits in the bay counties where he had property in his wife's name.

SAN MATEO BOXING ATTRACTS SOLDIERS

Jack Downey of Redwood City, and Young Sharkey of Camp Fremont, furnished the main event of the Floral City club's boxing show held at San Mateo last Tuesday night, and so far as the soldier boys were concerned, the bout proved somewhat of a disappointment. Two soldier boxers from Camp Fremont were billed to take part in the evening's festivities, and about two hundred soldiers from the camp were at the ringside to cheer their favorites. Young Sharkey, fresh from the Philippines, where he had cleaned up pretty nearly everything in sight, was billed as the main attraction. He was pitted against Jack Downey, the old master, at present a resident of Redwood. Between fights Downey works at his trade as a cigarmaker, and is at present employed by C. L. McKinney, the local tobacco merchant. Downey, who has been in the boxing game for years is considered one of the craftiest of ring men, and while he has never been a champion, he has boxed all the top-notchers, and has proved a stumbling block to many a near-champion, so the task laid out for Sharkey for his first public appearance here was anything but easy.

Tuesday night found the old veteran in his best physical form he has shown in years, and Sharkey found himself completely outclassed. At no time during the fight was he able to land a telling blow on Downey, but he was game to the core, and although he was being badly battered, he kept boring in for more, until in the third round the referee stopped the uneven contest and declared Downey the winner. Sharkey's poor showing was most likely due to the fact that he has not had sufficient time to properly condition himself for such a hard contest. Having been here but a short time from the Islands, the change in climate has effected him considerably, and being a truck driver at the camp, he has had but little time to work himself into the proper shape. When he entered the ring, it could be easily seen that he was far from the proper fighting trim, and at no time during the contest did he show the dash and pep that he is supposed to possess.

The special event brought together Jimmie Ryder, also of Camp Fremont, and Jack Sherman, who was introduced as the champion of Seattle. Ryder proved himself to be a classy performer ,and had the large crowd with him from the jump. He is a fast boy with a good kick in either hand, but like Sharkey, he showed the lack of proper conditioning, and it was no doubt due to this fact that Sherman was able to stick out the four rounds. The contest was declared a draw, although most of the crowd thought Ryder had earned the decision. Local fans would like to see more of Ryder, and it is safe to predict that after he becomes thoroughly acclimated, he will prove a worthy opponent for any of the boys hereabouts.

The balance of the bouts were all well contested, and the big crowd present went home well pleased with the evning's sport.

Td Thompson of Redwood City acted as judge in place of Chas. Mason, and made a hit with the crowd.

COMING INTO OUR OWN

Redwood City has awaited a long time to come into its own. For "lo these many years" we have hoped for commercial and industrial advancement—either to find our hopes disappointed or but partially fulfilled. Many times we have been told that prosperity was knocking at our door but we must wait a time with patience.

But those of us who have realized the possibilities of our splendid location, our splendid climate and vast industrial advantages, have never lost faith. And, evidently, our faith is soon to be justified. Redwood City is about to come into its own—both commercially and industrially. New manufacturing enterprises are locating in our midst, ofering promise of employment to many people. New business enterprises are coming into our midst, old business enterprises are being improved and enlarged to meet the coming demand.

Shrewd business men, those who are not slow to realize the promises of the awakening industry, are being attracted to our midst. As a recent example of the certainity of this, of the assurance that business revival is a certainity, might be mentioned the change being made in the proprietorship and management of one of the leading business concerns of the city. Within the past few days Mr. J. W. Paulding, a man of experience in business, has come into our midst and purchased from J. N. Knox, an interest in his dry goods business.

With the coming of Mr. Paulding, comes the announcement that the business is to be materially enlarged. That stock is to be increased and new lines added to provide for the demands which must certainly follow the inevitable increase in population. Certainly this is evidence of faith in the immediate future. It looks like our time has come.

OUR YOUNG MEN

The greatest curse of the age, with our young men, is their persistent attempts to live a thirty-dollar-a-week style on a twenty-dollar-a-week income. The problem is just about as difficult as the passage of two railroad trains in opposite directions over the same track.

Now, while we fully appreciate the natural aversion the average young man has to being lectured at, yet we apprehend that a few friendly hints and suggestions, offered in sympathy for him and charity for his mistakes, will not be taken amiss.

We fully understand the nature of the temptations with which our young men are constantly beset. Naturally social and disposed to be convivial, they find enjoyment mainly in association. They meet upon the street corners and at the saloons; they find a hundred avenues for their somewhat limited means. They treat each other to cigars and beer, play billiards or pool, and occasionally a game of draw poker, and thus readily run through a few dollars a night, and find themselves "dead broke" or in debt at the end of the week.

By far the most deceptive and dangerous of all vices to which our young men are exposed is that of gambling, for it carries with it every other vice in the dark catalogue. Especially does it go hand in hand with drinking; and if persisted in will as surely lead to ruin as the needle points to the pole.

In every populous community there can be found a number of well-dressed, genial fellows, who seem to have no fixed occupation. They spend their nights in manipulating the cards, and are up to all the tricks of their trade which come of skill and long practice. These men live mainly off our young mechanics and clerks, who foolishly imagine they can cope with them in their especial vocation.

And there is another class of young men, who manage somehow to dress well and hold up their heads in society, who attend all the dances and parties and are occasionally seen riding in a high power car. "They toil not, neither do they spin." They are what might be called a species of parasite. They live by borrowing. They meet our industrious young man at every turn. They know when pay day comes, the exact amount that each of their friends receives, and are promptly on hand to "strike them for a piece."

Any young man who is in the habit of spending his evenings "up town" knows all about these and various other kinds of parasites. He realizes that if his earnings were double what they are he would not be able to meet all the demands and drains made upon him.

But what is he to do? Would you deprive him of all social pleasures—of all enjoyment of friendly intercourse with his companions and fellows? Not at all; we would elevate the character and standard of his enjoyments. Instead of his indulging in those practices which destroy health and debase the soul, we would inspire him with a taste for those enjoyments which enoble the man—which add health and length of years—which adorn and beautify for time and eternity.

See here, young man, do you know the real enjoyment there is in a good book? Are you familiar with our standard authors? Do you realize what real and unfading joy there is in the companionship of good books? Compared with the health and soul destroying pleasures of a night's carouse, they are as daylight to the murky night—the calm of a spring morning to the dismal wail of the temptest. Suppose you "turn over a new leaf" for a while and try it. Shake off some of the leaches that are sucking your life out. Provide yourself with a few choice books and spend your evenings at home. Deposit five dollars of your weekly earnings in a savings bank. Try it for a year, and, our word for it, at the end of that period wou will find yourself, in addition to the money saved, in possession of a stock of manhood, self-respect and general knowledge that will be worth to you a thousand times the efforts it costs.

COUNTRY EDITORS WERE RIGHT

Several weeks ago a spokesman of the Department of Agriculture at Washington delivered an address in which he scolded American farmers for the ruthless slaughter of calves, citing statistics as to the number of calves butchered, and arguing that farmers should raise these animals and thus add to the meat supply of the country. Immediately, and in almost every agricultural section of the United States, there was a protest and explanation by the country editors who are in reality in closer touch with the farmers than are the Department chiefs in Washington.

It was explained in the country press that the male calves of dairy breeds do not make profitable beef animals—that the grown animal will not sell for enough to pay the cost of production. This explaines why a large proportion of the calves are slaughtered, and the other slaughterings were explained by the fact that many farmers either have not the feed or other facilitis for raising even female calves and hence send them to the butcher.

Now th food administration has secured reports from the stockyards in all the principal centers and finds that the country editors were right. The farmers did not deserve the scolding administered to them.

A DIFFERENT SONG

W. J. Bryan says that he does not know how long the war will last but that he knows the quickest way out is straight through. Fine, fine! And how splendid that would have sounded a few years back when a Republican administration was trying to put down the Aguinaldo rebellion in order to bring peace, health and happiness to the residents of the Philippines. But Bryan was singing a different song in those days.

SOLDIERS' LETTER DAY—NOV. 11

On Sunday, November 11, write a letter to your boy, or if you have no boy or relative in the American army or navy, write a letter to your neighbor's boy, and send him a copy of the old home newspaper. Let him know you are thinking of him, that you believe in him, that you are backing him and you want him to make good physically and morally. Tell him to make use of the Army and Navy Y. M. C. A. It's the boy that is lonesome and heartsick for a letter from home that oftimes falls. Let him know the home tie is strong and he will be proud, happy and anxious to make good and come clean. The Y. M. C. A. is the nearest thing to home he has in the army or navy. Tell him you are helping this work and he will appreciate it. Between November 11 and 19 the Y. M. C. A. hopes to raise $35,000,000 for its work among the soldiers at home and abroad. It needs your help and your subscription, and the soldier or sailor needs that letter from home.

HOUSEWIVES RESPOND TO HOOVER CALL

Full Quota of 500,000 Names Expected in California

"Will you conserve food now, or will you get in line with a bread card later?" This was the question asked by Food Administrator Harry Wheeler of Illinois at a large gathering in Chicago last week.

Though at first blush this may seem to be an exaggeration of actual conditions, reports received by the Food Administration in Washington from the producing centers of the United States show that it is imperative that every consumer of food in the country do their part toward the conservation of the Nation's food supply.

The Food Pledge Campaign which has been under way throughout the United States this week is rapidly drawing to a close. The major portion of 22,000,000 families in the country have signed their Food Pledge Cards. This is also true of California, but there is still a large number of pledges to be signed before this State will have exceeded its quota of 500,000 signers by a comfortable margin. We, in this city, have as yet to sign a large number of Pledge Cards before we will have fulfilled the quota asked of us by the Government. If you have not already signed you Pledge Card, clip the one published in an adjoining column, and return it at once to the offices of the U. S. Food Administration in San Francisco. Immediately upon receipt of your Pledge you will automatically become a member of the U. S. Food Administration. A Window Card bearing the official emblem of the Administration will be mailed to you at once, as well as a Kitchen Card which tells in just what manner you can aid the Government in the saving of food and elimination of waste.

The mere signing of the Food Pledge Card does not mean that your responsibility ends there. It is just as necessary for you to follow the terms of the Pledge as it is for the soldier in the trenches to follow the commands of his officer. This war can and will be won by the United States. But it is of vital necessity that every man, woman and child do their part. And one of the most effective parts that can be played is the strictest economy in the use of food stuffs and the elimination of all waste. In another column you will find a day's menu for tomorrow. Follow this and see to what an almost unbelievable degree the family purse can be stretched, and at the same time have your family provided with a proper degree of appetizing nourishment.

That California in the final count will exceed its quota of pledges was the statement issued yesterday in San Francisco by Warren Manley, Director of the Pledge Card Campaign for California. Let it be the duty of every man and woman in this city to make every effort and make our city the banner Pledge City based on a percentage of population in California.

HALFMOON BAY NOTES

Among the Halfmoon Bay registrants who passed the physical test before the military draft board this week were H. C. Hall, William J. Azevedo, J. A. Cunha and George W. Azevedo. John Serpa was rejected on account of heart valve trouble.

Judging from the earnestness and completeness of the arrangements, the entrtainment and bazaar of the Catholic church to be held in Cunha hall November 9th and 10th, will be a huge success. The local firms have willingly promised to advertise in the program pamphlet which is being arranged. A pleasing musical program is to be rendered on Friday evening, November 9th, ranging from solos to a juvenile operetta under the guidance of Miss Belle Vallejo and Mrs. M. J. Bettencourt. Hon. Sylvester Andriano of San Francisco, a gentleman of no mean histronic ability, though an ameteur, who requires neither introduction nor recommendation to Halfmoon Bay audiences, has very kindly consented to give several readings, among others he will give "Alaska."

Frank J. Bernardo and J. A. Fernandez have each invested in a new 5-passenger Overland car.

Justice of the Peace John Pitcher who spent his younger days "steamboating on the Mississippi" between Saint Louis and New Orleans, and lived in the former city before the lure of the yellow metal brought him to California in '49, had the pleasure of greeting some relatives from the old home on Tuesday last who had come to spend some time on the coast.

Frank Azevedo, a prosperous rancher of this vicinity, has moved his family to town and they occhpy the Pitcher cottage on Purisima street.

John Meyn made a trip to Stockton Monday, returning on the day after. He went by way of Niles and Livermore. Just to show what a Ford can do, John says that he made 121 miles on only 4½ gallons of gasoline. Mr. Meyn has established the Ford sales and service station at Knapp's garage and put S. A. Ponce in charge—a first-class automobile man.

Mr. and Mrs. Harry Staples and little daughter were away a number of days this week to attend to the legal formalities of settling an estate belonging to a sister of Mrs. Staples who was killed in an automobile accident near Madera several months ago.

A reunion of Catholic clergymen took place at the parish house last Monday night. Thirteen Italian priests were present, among them Rev. Fr. Andriano of Healdsburg, the former pastor in charge here.

HOOVER APPEALS TO ALL FAMILIES

Sign Your Pledge and Line Up to Obligations

Food Pledge Week is now just half through and California is responding to the call of the Nation in a characteristic fashion. Food Administrator Herbert Hoover has asked that this State sign 500,000 pledges as its share of the 22,000,000 pledges that are being signed throughout the United States. California is responding nobly but in order to do as California has always done, it is necessary for every man and woman to continue their efforts for the conservation of food in the State.

From the San Francisco offices of the United States Food Administration there was received word this morning that from the Mexican border to the northern line, California is doing her "bit." The menus for Food Conservation Week, as sent out from San Francisco and published here in another column, are being followed religiously. Housewives throughout the State are even going the terms of the pledge one better, and are devising ways and means for the conservation of food in the home that will prove of value to the experts in charge of the campaign.

There is probably not a housewife, or, for that matter, a mere man, in this city who does not understand what conservation of food means. Germany at this time is on rations of such a kind that it is sapping the strength of her armies. This same would happen to our boys in France and to the fighters of our Allies if we should fail to follow the terms of the Food Pledge. So far there is not a county in the State that is not measuring up to the expectations of the Food Administration. This county is keeping abreast with the rest; so is the city. But it behooves every one of us to do even better than our neighbors. If you have not already signed the Food Pledge Card given you by the local committee, clip the Pledge published here and return it at once to the office of the United States Food Administration in San Francisco.

When Governor Stephens issued his proclamation last Monday it was aimed directly at you, and asks that before November 4th every family in this State sign the Food Pledge Card, which is a promise to the Federal Government that California is squarely behind the Nation and the Allies. Every product necessary to feed our fighters across the sea passes through the hands of the local housewife. This includes wheat, beef, pork, sugar, and dairy products. By signing the pledge you promise the Administration to become a part of the fighting force of this country, just as surely as though you were undergoing intensive training at a concentration camp.

In urging the American people to "serve by saving" and to "fight" by helping the fighter fight, the United States asks no one to go hungry. It proposes that people shall "eat plenty but wisely and without waste." If they will do this our own soldiers and the soldiers and peoples of our Allies and Americans will be healthier, wealthier and wiser. The feeding of the armies in Europe is, after all, America's biggest problem, and as the natural guardians of America's food product the women of this country are called upon to give their services. If the housewife will help we can send great quantities of food of the most concentrated and nutritive value in the least shipping space. Every little bit that you save is just that much more for our fighters. Your part is to sign the Pledge and enroll as a member of the Food Administration in your home, so far as your circumstances will permit. If you have not received the Pledge, sign the Pledge published in an adjoining column. Don't wait until tomorrow. An ounce of food may be wasted in that time. Do it now.

HELP TO WIN THE WAR --SAVE FOOD

Sign the Administration Pledge and Return at Once

There is no reason why any woman or man in this county should not increase the efficiency of their household during this week. In an adjoining column you will find a complete menu for each day of Hoover Pledge Week. This menu is prepared by an expert in San Francisco, and follows strictly the suggestions made by Mr. Herbert Hoover in his plea to the housewives of the United States for the conservation of foodstuffs.

The family enrollment campaign started yesterday in this county is already reaching such proportions that if the other counties in the State do equally as well California will exceed its 500,000 quota by a generous margin. It is necessary, however, that each housewife here continue her efforts to obtain Food Pledges right up to Saturday night. It is not only necessary, but it is vital to the success of our armies and the armies of our Allies abroad that this campaign go through and that the pledges be followed absolutely.

All America working together with a common understanding for a common purpose will be able to command the situation, which, without such cooperation, can only be handled by a Government decree. It is not like the people of the United States to make this necessary. We have over-subscribed the Liberty Loan, contributed generously to the Red Cross; we are taking care of the comforts of our boys in a thousand and one little ways—but they must be fed. Our Allies must be fed, and it is part of your job to aid in the feeding. This is the importance of Food Pledge Week. Its success insures victory during the war and continued success after the war. It is your duty to sign and return the Food Pledge Card at once. Not only to do this, but to follow to the last detail the obligation that you have assumed. We in the United States can make up the food shortage of our Allies, but it is absolutely necessary that you, as an individual, do your part. This means that you must cut down on your household supply of meat, wheat, sugar and fats. Fats are fuel to the fighters, and the United States must be in a position to send abroad the greatest amount of foodstuffs in the least amount of shipping space. By doing this we will produce the greatest amount of efficiency by the supplying of body-building materials. This is something that Germany is no longer in a position to do.

All the world looks to the United States to win this war. The United States Government looks to the individual; and, after all, you are the individual. Mr. Hoover has said that it would be the women of the United States that would win the war by the conservation of food. This week the issue is put squarely up to you. Thus far it has been the male of the Nation that has carried the burden; now it is the turn of the women. It is not necessary for the housewife to stint on the table; nor is it necessary to do without nourishing food, but it is necessary, even vital, that a curtailment be made on wheat, meat, fats and sugar. Just as soon as you have signed your Food Pledge, return it to the offices of the United States Food Administration, 500 First National Bank Building, San Francisco, and you will receive by return mail the official Window Card of the Administration and a Kitchen Card which shows just how the ideas, as suggested by Mr. Hoover, may be carried out.

This is the final effort of the Food Administration to enlist the women of the United States. It is your duty to your country to give whatever assistance lies in your power. When history is written it is in the power of every housewife in the United States to have it said that it was due to the food conservation efforts of the United States that the Huns were forced to recognize the principles of Democracy. Do your part. Save food. Eliminate waste. Feed our boys and the boys of the Allied Armies. Sign the Food Pledge. Do it now.

500,000 SIGNATURES TO FOOD PLEDGE

Government Calls on People to Aid Conservation

The United States Food Administration calls upon the men and women of California this week for 500,000 signatures to a Food Pledge which has for its purpose a conservation of food throughout the United States. This campaign is considered by Food Administrator Hoover the greatest effort on the part of the men and women of the United States yet attempted in their effort to guard against food waste and the saving of certain staples for the fighting men abroad. It is emphatically stated in Washington that the housewives have in their hands the winning of the war.

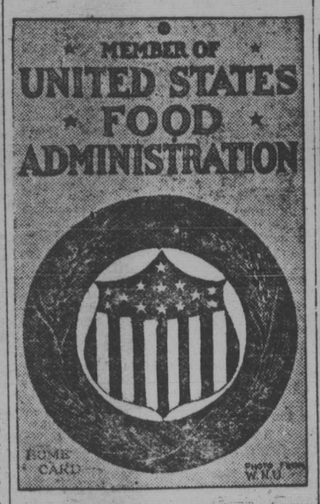
One of the most vital problems confronting the American people today is the necessity for supplying our Allies with necessary foodstuffs. All of Europe is short of food. The scarcity in Germany is even more marked than in other countries. Millions of bushels of wheat, as well as huge quantities of beef, pork, sugar and dairy products must be shipped from the United States. There is only one way to do this. Sign the Hoover Pledge Card and then live up to the terms of the pledge. This is your opportunity to do your bit and become a member of the fighting force of the United States just as truly as though you were with the soldiers in the trenches.

Every State in the United States has challenged California to produce an equal number of pledges based upon a percentage of the population. It is imperative that you and your county accept this challenge as a personal one. It is expected that each family in each county will do all that is possible toward gaining the goal of 500,000 signatures.

The Administration has asked for expressions of faith from 22,000,000 families who purchase and consume food daily. The campaign which is now in full swing here offers you the opportunity to accept a membership in the United States Food Administration and to follow out the directions and advice of the Food Administrator, insofar as your circumstances will permit. If you have not received the Pledge Card from the local committee, in an adjoining column you will find published the terms of the pledge. Will you sign this and return it at once to the office of the United States Food Administration, 500 First National Bank Building, San Francisco?

The United States is now in a position to command the situation. We are banded together for a common purpose and with the addition of the family enrollment for the conservation of food the success of our effort for the preservation of Democracy is assured. Do your "bit." Sign the Food Pledge. Become a part of Uncle Sam's fighting force. We must win. We will win. And now is your opportunity to help. SIGN THE FOOD PLEDGE.

FOR FOOD PLEDGE SIGNERS



Millions of the new Hoover pledge cards have been received by the woman's committee of the council of national defense and are being distributed throughout the country at the request of the national food administration. Those who sign the pledge may obtain handsome cards bearing the words, "member of the national food administration," and a colored shield on a wheat-decorated disk.

FOOD APPEAL IS DIRECTED AT YOU

This Country Doing Well But More Names Are Needed

The United States Food Administration this week is making an appeal that is directed to you. You are asked to sign a Food Pledge which will make you a part of the United States fighting forces. Throughout the United States there is being signed this week 22,000,000 pledges, the vast majority of which are coming from the housewives. California is doing its share by contributing to the whole, 500,000 signed pledges. From present reports received here this State will exceed its quota. It is necessary, however, in these last few days of the campaign to make every effort to bring the percentage of this city up to the very highest figure possible.

If you have not already signed the Pledge received in the mail or presented by our local committee, clip the Pledge published in another column and forward it at once to the offices of the U. S. Food Administration in San Francisco. Immediately upon receipt of your signed pledge the Food Administration will mail to you a card which makes you an official member of the U. S. Food Administration, and gives you a Kitchen Card which shows in detail how you may aid the Government in its fight for the preservation of Democracy.

The Administration is not asking the men and women of California to go hungry, but urges that the people of California serve our fighting force by saving, the elimination of waste, and by placing a strict pledge upon their conscience to become a part of the fighting force of our country as much as though they were waiting for the word to "go over the top." So far, this city has more than made good, but we must go even further and turn in to the offices of the U. S. Food Administration in San Francisco more than the number of Pledge Cards expected of us.

It is imperative that every woman in this city continue her efforts up to the eleventh hour, so that when the final reports are made by the San Francisco office to Mr. Hoover in Washington, it will be shown that there is not a city or town in California that has not made good.

The Kitchen Card which accompanies the U. S. Food Administration Card is a sure guide to the housewife as to just what she must do toward the conservation of food, the chief features of which are: why we must send more wheat, why we must send more meat, why we must send butter and milk, and why we must send sugar. It must be remembered by the housewife that every flag that flies opposite the German one is by proxy an American flag, and that the armies fighting in our defense must be fed. This is the job of the United States. It is your job. Your neighbor's job. If you have not already signed the Food Pledge, do it now. A delay of even a day may mean the improper feeding of thousands of fighters. DO IT NOW.

SOLD BY DRUGGISTS EVERYWHERE

By Midnight Wednesday Sept. 12th

Up to midnight, September 12th, during a period of 8½ months, we sold and delivered to tire dealers more United States Tires than we sold to dealers during the entire 12 months of 1916.

This phenomenal sales increase was made notwithstanding our epoch-making sales increases of 1916 over 1915.

These record-breaking sales increases of 1917 over 1916 and our record-breaking sales increases of 1916 over 1915 definitely and finally prove three facts:

1. The supremacy of United States Tires.
2. The fact that the vast army of automobile owners who used United States Tires in 1916 are using them in 1917 on the sheer merit of their experience.
3. The fact that another vast army of automobile owners have been won over to the use of United States Tires in 1917 on the sheer superiority of our tires over other tires that they have tried.

DUCK HUNTING REMINISCENCES

STORY NO. 18, By CLAUDE FOX

The next morning after our successful duck hunt "Bill" and myself contented ourselves with loading shells, cleaning the little No. 12 shotgun, which we both fairly worshiped, fondling the thirteen webfoots which had fallen victims to our marksmanship and recounting over and over again every minute incident connected with our trip to a coterie of playmates who assembled down in the old granary to listen eagerly to every word we uttered concerning our hunt from its inception, until we rounded the old Offermann corner upon our return with the birds of the marshland strung over our shoulders, proud as two peacocks in their dazzling plumage, and by far the happiest pair of kids in Redwood City. When should we go again, was the one thought uppermost in our young minds. Had we been in a position to have our own way in the matter, there would have been no hesitancy about arriving at a quick decision, but the storm king was drenching the land with a heavy downpour, so welcome to the farmers, and by reason of a little parental advice, as well as restraint, we were compelled to lay the shotgun away and remain under cover. All night long the wind had swept up from the southward and long before daylight broke the rain was coming down in torrents, and the principal avenues of traffic, at that time designated as Main, A and Bridge streets, were soon converted into ankle deep roadways of adobe slush which compared very favorably with the mud flats along the marshland.

So we remain down in our clubroom entertaining our boy visitors and making plans for the next trip. The hunt of the day previous was not only indellibly impressed upon the minds of both of us by reason of the pleasure derived therefrom, but we had learned much, and our experience was a lesson never bf us to be forgotten. From thenceforth we knew that when the sky became overcast, and the tall poplar trees that formerly stood on Mrs. Thorpe's property began bending their topmost branches to the northward as the moaning southwind whistled through them, it was high time for us to don our hunting clothes and wend our way with all possible speed down through the tarweed stretches of the Sweeney ranch to the "Little Pond." Upon such occasions we were never disappoined, and it was not long before we were able to gauge the speed of flight of the bunches of teal that came skimming along the flats, and while we were unable for several years afterwards to accurately judge a single duck so as to be able to drop him while on the wing, the bunches became a dead certainty for we soon learned that by aiming at the leading birds we would be sure to kill two, three and sometimes more out of the middle of the flock.

The "First Fence" lay about a mile and a quarter from the old jail, directly eastward running across the main or large field of the Sweeney ranch horizontal to the line of the marsh, and down the center of this field ran a narrow road used principally for hauling hay and grain to town and also by the owners of the property in driving back and forth to their home. At the point where this road intersected the "First Fence" sood an artesian well, which in those early days gave an abundance of water, but which has of late years gone entirely dry. Watering troughs and a small corral also had been constructed at this point and the surplus water from the well ran down a ditch along the fence to the "Little Pond" and spread out over the mud flats adjacent thereto. This fresh water was the attraction which drew the wild ducks to that locality. They came in there to satiate their thirst for years before I ever pulled the trigger of a shotgun and kept coming for years afterwards, until the farmers ceased the planting of grain and necessity forced the broadbills to seek pastures new to fatten on the cereals sown by the tillers of the soil in other localities. Below the "First Fence" the balance of the Sweeney ranch was cut up into smaller tracts with four additional fences running crosswise of the land and parallel to the "First Fence." These were named respectively by the nimrods of those days the Second, Third, Fourth and Fifth fences, the latter being the dividing line between the Sweeney and Flood ranchs at the Fourth Fence. Mr. Sweeney was kind enough to bore another artesian well and its etra supply of water ran down a ditch along the fence and spread out on the flats, furnishing one more drawing card for the wild ducks and at the same time making a beautiful locality for those afflicted with "duckitis" to spend a few quiet hours on a moonlight night in quest of the little green-winged teal or other varieties of the web-foot family. Not only Mr. Sweeney, but Mr. Flood, seemed ever mindful of the necesssities of the small boy carrying a shotgun in pursuit of wild water fowl, for shortly after acquiring their respective properties both these gentlemen took the precaution to plant several acres of their lands in fine bearing fruit trees, among which was some beautiful winter apples. If I remember correctly the Flood orchard grew the most delicious of this toothsome fruit. Shouid I be mistaken, I would respectfully refer you to my old friends James Cullen and Fred Stalter, of whom I shall later write. At any rate, all these matters were facts, the knowledge of the existence of which "Bill" and myself early acquired, and when through oversight, or our aniety to reach the haunts of the quack-quacks, we had neglected to take any lunch along to refresh the inner man, or rather boy, full well we knew the exact location in the fences surrounding the orchards, where we could unobserved, shinny over and make our get-away with pockets loaded with luscious fruit which our unconscious benefactors had seemingly placed there for our special benefit.

Your Bodily Comfort=
largely a matter of temperature isn't it?

When the household expenses are figured up the sums spent for heating are conspicuous items. To maintain your home in comfortable heat has been costly and more than likely unsatisfactory.

Each year, as the time for purchasing winter fuel arrives, you wish for some means to avoid the lumped expense. You dread the drudgery the heating season brings with ordinary means of heating.

It may be that you, like many others, have wished for a way to heat your home in a manner as conveniently as you heat the oven in the gas range—just a match to light—no fuel to bring in—no ashes to carry out—no fuel to store—just perfect heat and sure comfort.

This message to you, then, is that the recent developments in gas heating systems have made your desire possible. Whether your tastes or conditions demand ventilated radiators, hot air registers or the new grate fire, we can supply you. No matter if you want one room or a dozen rooms heated, vented and sanitary gas heaters will now do the work well and conveniently—and at a reasonable cost.

Call on us for an estimate---we will gladly give it. Let us store your fuel

"WHO'S WHO"
IN REDWOOD CITY
By Paul Pry

(Continued from page 1)

ways be glad to make you happy with a new suit of clothes. What is his name and address? A name that is an emblem of peace.

13 than this one in California. There may be larger markets but there are none where better meats are sold—that's sure. It is a market that has been running along serenely under the same ownership for many years. They are wholesale and retail dealers. They supply a multitude of the best homes of this city and surrounding country. They handle the very choicest of meats, also poultry and fish. It is the market where money talks and says something besides "Goodbye." Choice beef, pork, lamb, veal, ham, bacon, sausages and lard. They have plenty of refrigerating room, everything sanitary and up to date. Oldest and best equipped market in city. What is the name and address?

14 Here lives a man who doesn't refuse to make or mend your boots and shoes; whose leather is good, whose work is quick, and he gives no tick; and when he dies he fears no coals for he has "saved so many soles." He has been located here but three weeks. He has the electric machinery and can turn your work out while you wait. He carries a full line of shoes for the whole family. Also has men's furnishing goods. Low rents and the minimum expense enables him to sell shoes a little bit cheaper than many other shoe stores and the result is that he is getting a good trade. He is just a whisper away from the business center. What is his name and address?

15 Talk about your busy places, few, if any, have this one skinned. It is a big billiard hall that is about the liveliest place in town every evening—and frequently as busy during the day. There are four tables in all—one billiard and three pocket billiard tables. It is the place where the boys all meet to have a pleasant hour together. Where gentlemen of leisure coin the ilde hours into busy minutes. Down town looking for a friend you will nearly always find him there. They have plenty of good smokes—the kind that is your favorite. And they have soft drinks and Bryan grape juice. What is the name and address? Fronts west.

16 Are you fond of Mexican dishes? If so do you know where to get them in their purity? Here is a restaurant that has only been open for business a short time, and it is getting a fine patronage. Their tamales are supreme, and their Chili Con Carne and other Mexican dishes can not be excelled any where in California. They serve the home-made tamales. If you haven't been in to test them you are wasting a lot of time. They also make a specialty of fine coffee and short orders. What is the name and address?

17 What is the name of the hotel in this city that takes he le d? The impressions a stranger gets of a town largely come from the w y he is entertained, and in this regard few cities in the state have a better advantage than Redwood. This hotel is run on principles that make every one's stay a delight. Breakfast, dinner and supper come each time as a pleasing surprise to the appetite. And the rooms are so comfortable, such nice beds, telephones, hot and cold water, with and without baths, and everything kept clean and inviting. The rooms and hallways are always "spick and span" and the service is very satisfactory all round. It is the commercial men's headquarters.

18 Who are the rich men of tomorrow?—those who buy l nd today. There never was a better time to invest than right now, and this number presents a real estate man who alweys has some under-the-market bargains in city property and farms. He has been in the real estate business in this city for 23 years. He writes fire insurance and makes real estate loans. He is always active when there is anything doing in the way of selling some one a home. He ties as many people to a home as the most popular minister in the city ties by marriage. What is his name and address? The first syllable of his name tells what he sells.

19 Signs—Indians make them, so does this man. His skilled hand has been inditing gems of art so long and the product is of such high quality that it attracts attention on account of its unique art. He makes a specialty of gold leaf and raised letter work, and he is anything but slow on card work and cloth signs and banners. You know there is a difference in eggs—so there is in signs. His signs talk—his banners and bulletins yell. He is a firm believer in signs. He has a studio on the ground floor. He also does house painting, is a fine paper hanger and decorator. What is his name and address?

20 Give name and address of this home bakery that makes such fine product—so good that people come from every direction and buy the whole output right over the counter? It has been running under its present management about three years and it has marked out a place for itself among the good livers of Redwood. They sell all their capacity will admit without city delivery. Their rolls, cookies, pies ,cakes, doughnuts and pastry of all kinds is of the very highest class. And their bread is superior—in a class all by itself. What is the name and address.

21 Give the name of the theatre that brings the "Movies to you in such beautiful splendor, accompanied by the deep tones of inspiring music? All for only an insignificant little thin dime—5c to the Kiddies. They project the Bluebird, Triangle, Pathe films and others of the higher class. Their programs are always entertaining and educating. Can you deny yourself and family so inexpensive a pastime. The film has brought to the attention of many of us scenes of educational value; has shown the habits of people we are not likely to see in the flesh; has demonstrated before our eyes interesting methods of manufacture; has shown the marvels of scientific achievement. Prices always the same.

22 This number represents a real custom tailor--one who makes up the suits right on the premises. He the suits right on the premises. He has been doing business in this city 15 years and has lots of customers from the class of men who know a good fit when they see it. He fits the suit right to your form and brings out the individuality of your person. He does the very best cleaning and pressing, remodeling and repairing for both ladies and gentlemen. You will find him on the ground floor on a street that is sure some street. What is his name and address? Fronts north.

23 "I see by the paper that Jones has mortgaged his automobile to build a home," said Smith. "Well what a fool," replied Brown. And that is what it is coming to—automobiles are fast becoming a necessity. What is the name of the car that is "tougher than an army mule and cheaper than a team of horses?" Have you got yours yet? If not you should be getting your name on the dotted line, and thus get it without delay. You can get this car now with electric lights. The beauty of this car is that you can "bump the bumps" anywhere witout breaking a spring—they are made of Vanadium steel. What is the name of this car, and who is the distributor in this city and county: Has a first-class garage in this city—storage, repairs, supplies and accessories.

24 Give name of the market that has all United States Government inspected meats? Every quarter of beef that comes into their market bears the stamp of government inspectors who have examined it and found it to be perfect, wholesome food. No rejected meats are allowed to go on the market. The government spends thousands of dollars to protect you from impure foods, but it is all waste unless you co-operate by buying the foods they inspect and pass as good. This is the market that sets the pace in Redwood. It is beautifully white and clean inside. Has a cold storage plant that preserves everything wholesome. The very choicest sausages and other delicacies. Largest force of meat cutters, and you seldom ever have to wait.

25 Who is the watchmaker and jeweler who is always ready to give you an honest opinion about your timepiece, its needs and requirements? Think of it—the balance wheel in your watch makes 157,680,000 vibrations in a year's time. What about neglecting to oil it? The most intricate timepieces are no puzzle to this watchmaker. They all yield to his treatments. He has been in business in this city 45 years. He also repairs jewelry, and does business in a building that wears his own name. Give his name and address.

26 Give name and address of the company in Redwood that can give you an insurance policy on the title to your real estate? It is a company that has more than a million dollars paid-up capital and when they insure your title you are safer than relying simply on an abstract. They will furnish you an abstract of title if you want to stop at that, but they go farther and insure your title to be good. This company recently established a branch in this city, merging two abstract companies of this city in with them. The headquarters of the company are in San Francisco—the oldest, strongest and best title insurance company in California.

27 When anything goes wrong with the automomobile who is the best man in the city to see about it? Others may sell the autos, he puts in a good part of his time keeping them in repair. He knows the excentricities of all the various makes and can come as near making them "run on their reputation" as any man in the state. He has no sales agencies—gives his whole time to repair work. Incidentally he would be an impartial adviser for any one wanting information about automobiles. He has a garage and repair shop fully equipped to take care of all classes of repair work. He carries a complete line of tires and accessories. What is the name and address. A street number of a half thousand.

28 You owe it to the family larder to know about this meat market, for they have the loveliest beef, pork lamb and other fresh meats; and such delicious hams, bacon and other cured meats, also fresh fish. Everything looks so neat and clean; there is an utter absence of everything that looks unsanitary. It is one of the cleanest markets in the state. It is a market that has been in operation several years—came under present control four years ago. Now that their system is perfected they are prepared to give you more for your money than ever before. What is the name and address? The only meat market on this street.

29 What phone do you ring when you want an auto for a long or short trip? All you have to do is to tellthem over the phone and they will be at your door just as quick as the gas can explode—and you know that it shoots pretty quick when the ignition occurs. They have good looking and easy riding cars and safe and sane drivers. They can get you there and back as quick as anybody on earth. They have an office on Broadway and some one at their end of the wire all times, day and night. Give the name and address. A phone number that means "Skidoo," and that is just what they do.

30 We are leading you close beside the "land of harmony" in this number. It is a music store that has been carrying the carols of contenement and cultivation into the homes of this city and surrounding country for five years past. They sell pianos and musical merchandise, and they are distributors for Columbia Grafonolas and records. You are welcome to come in any time and hear the latest songs and instrumental selections. They have sheet music and stringed instruments—musical merchandise of all kinds. What is the name and address?

31 Who are the people in this city who do the oxi-acetylene welding and make it stick? They weld any kind of broken castings and make them just as good as new. They guarantee their work. Don't throw it away and send for a new part, just take it to them and they will fix it p. d. q. and only charge you a small fee. They run an automobile garage and take care of machine work and automobile repairing in all its branches. You are always safe when you leave your car at this garage. None but first-class machinists are employed and your car will be returned to you in first-class condition. They are on the Highway. Give the name and address.

32 Here we introduce a concern that does its part toward keeping the town clean. They get the dirt and leave the shirt, or any article you may intrust to their care witout extra wear. They understand the art of starching which is the secret of making your shirt keep its proper shape. Saw-edge collars are the bane of man's existence. You don't get that kind returned to you from this laundry. They know how when it comes to turning out first-class collar work—or first-class ladies' work. They do everything by hand and give each garment individual attention. It is a home institution and money spent with them is kept in circulation at home. Give the name and address.

33 A prominent undertaking establishment has such complete accomodations for taking care of the departed that a brief mention of them here will be of interest. They occupy quarters in the residence section of the city, a quiet, cozy place, premises that were fitted and prepared for the purpose. Nothing was left undone that tends to remove the undesirable features of funeral obsequis, and everything added to give the public the very best service. They have a modern equipment with motor funeral cars, carry a full line of funeral supplies and give the public a good service at a fair price. Have been in the business here since 1868. What is th name and address?

34 Who are the people who have "solved the burning question" in Redwood? They sell coal and wood Redwood? They sell coal and wood —lots of it—every kind. They can put you in the way of comfort for the coming winter. They also sell feed, seeds ,flour and poultry supplies. They have been in the business in Redwood for many years. They always give you the square deal which every American citizen is entitled to. And this is why they have such a big trade. They have sold so much coal, baffled Jack Frost so long and so effectually, that they are almost ashamed to steal a glance at the aurora borealis. Give the name and address. A street number that begins with the figure 9.

35 Don't worry when you run against a telegraph pole. If you have all the pieces here is a garage where they can put them together again for you, good as new. And they can supply the missing pieces. They have been fixing automobiles ever since they came in style. You will find them right on the Highway, with a big garage for storage and ample tools and mechanics to take care of the work. Only the very gest repair men can hold a job here. They sell the famous Dodge Bros. car. If you want a real automobile you should see them. What is the name and address?

36 What is the name and address of the jeweler who has the "lucky wedding rings." He makes them to order and puts a special charm that is a guarantee of happiness and prosperity in every one of them. What more do you want for your money eh! He manufactures a lot of other beautiful things, remodels and designs old jewelry, resets diamonds and makes a specialty of fine watch work and engraving. He is also an expert optician and fits eye glasses perfectly. Has been in business in this city 10 years. He carries a big stock of novelties watches jewelry, silverware, cut glass, and optical goods. He has the agency for Victrolas and carries a full line of records.

STATE SEEKS TO HAVE INHERITANCE TAX FIXED

John S. Chambers, state controller, has petitioned Judge Buck to appoint an inheritance ta appraiser to determine the value of lot 35, block 13, Vista Grande and ascertain the amount of inheritance due the state. Chahbers alleges that Ellen Waters was the owner of the property on June 27, 1916, at which date she transferred the property to Eleanor B. Chase without consideration. This was done in contemplation of death. Ellen Waters died on April 2, 1917. No tax has been paid the state.

Judge Buck on reading the petition immediately appointed H. C. Tuchsen, inheritance tax appraiser to appraise the property.

ASKS COURT TO DETERMINE INTENT OF LEASE CONTRACT

An action has been commenced in the superior court by Agusto Barsuglia, a rancher of Halfmoon Bay, against Manuel Cunha, to correct a certain lease executed in 1912. Joseph J. Bullock, as attorney for Bursuglia, prepared the complaint charging in the same that the true intent and purpose of a certain provilon was not put in with a mutual understanding.' A building worth $1.500 was put up by Bursuglia on leased land from Cunha, and when the lease expired Barsuglia attempted to remove the house. Cunha restrained him from doing so, with the result that this action was commenced in court, for a judgment permitting him to remove his house, despite a covenant in the lease that all improvements and buildings put up by the lessee were to remain, when the lease expired.

THE SOLDIERS USE THE Y. M. C. A.

The Top Sergeant Says He Doesn't See How They'd Get Along Without It----Looks After The Boys

Upper, making leisure moments pleasant and profitable; lower, baseball under Y. M. C. A. auspices.

BY HENRY C. NEWELL.

I DON'T see how we could get along in camp without the Y. M. C. A. The buildings are the nearest thing to home in the whole outfit—and the secretaries look out for us almost like a wife does for her husband." The top sergeant who volunteered the statement at one of the big Pacific Coast camps where thousands of California boys are in training for the great adventure of war was never more serious in his life—and he was never nearer the truth, for when it comes to meeting the social, recreational and spiritual needs of the soldier there is nothing like the Y. M. C. A.

Mothers, sisters, wives and sweethearts of California can be assured that the Y. M. C. A. has supplied whatever might formerly have been lacking in camp life—and in a way that satisfies every soldier. Everywhere one goes in these great military centers there is a good word for the "Y."

There are tons of writing paper and envelopes for his unlimited use—an effective chain that keeps him linked to the home fireside and the loved ones. All he is required to do is to buy postage.

Then there are social games, checkers, chess, dominoes, billiards, and pool. A phonograph is kept busy day and night, for all the fellows love music. The ice water tank is also a popular spot. In bookcases or racks are the late magazines and newspapers.

Certain nights of the week are devoted to boxing or wrestling matches; others to vaudeville entertainments, lectures, motion pictures or home talent "stunts." Then there are educational classes for everybody and a fine chance to improve oneself mentally. French is now a popular study.

Baseball, volleyball, basketball and other outdoor games are almost constantly in progress under Y. M. C. A. direction in all the camps.

On the religious side, the soldier boys are being taken care of in the same efficient manner; there are many religious meetings and help of a personal nature when it is needed. Every Y. M. C. A. secretary is a confidant of the soldier boys and helps many of them through some crisis in his life.

It is to provide this same program for every enlisted man in America as well as the men in the armies of Russia, France and Italy that the Y. M. C. A. is now planning a national campaign from November 11 to November 19 to raise a fund of $35,000,000. Two-thirds of this sum will be expended in the United States or used to provide for the troops as they move across the ocean. Much of the remainder will be used for Y. M. C. A. work among Allied soldiers and the 6,000,000 prisoners of war.

California's share of this sum has been set at $750,000 and the campaign to be waged in this State is now being organized, with George W. Marston of San Diego as the chairman.

NATIVITY PARISH IN CONSERVATION WORK

Food conservation, elimination of waste and a proper regulation of the daily menu are the housewives methods of doing her bit in the general movement to stand solidly behind our beloved country in her present threatening crisis. The general voluntary conservation of food in this country means our government's ability to successfully sustain the Allies in the war in Europe, which whatever it may have been in the beginning, is now without question our war and daily becoming more pressingly so. Food and other supplies adequately given the Allies now constitute, according to Mr. Hoover, our first line of trenches and mean absolutely preventing the battle line of Flanders moving to the Atlantic shores.

Individual pledges and local organization are the back-bone of the food conservation movement. Menlo Park has met the challenge to this universal help. In response to the request of the food administration for parish organization, a committee of women of the Nativity parish were appointed during the week and have already entered energetically upon their work.

A general meeting of the parish will be called during the week. A patriotic program will be given and the meeting will be addressed by food specialists and other eminent speakers. The housewives of The Nativity, like housewives throughout the country are quite prepared to do their share and it is expected every one of them will have signed a pledge and put it into effect by the end of the week. Notice of the meeting will be given later.

Ernest Stent and family and the family of Frederick McNear sought their hibernal homes in San Francisco during the week.

Will Barg, the popular county recorder, is confined to his home with a severe attack of the measles. He was compelled to leave his office on Thursday on account of his illness. Mr. Barg will be away from his office for some days.

Percy E. Towne, the attorney, has applied in the superior court for letters testamentary upon the estate of Margaret Upton, aged 76 years and who in life was a resident of Burlingame. She died at the City of San Mateo on October 17, 1917. Mrs. Upton left a will bearing date of October 11, 1915, the subscribing witnesses were Peter A. Breen and Ellis T. Briggs. By the terms of the will the entire estate is bequeathed in qual shares to the two daughters of decendent, Frances Margaret Upton and Margaret Elizabeth Upton, both inmates of Agnews hospital. The estate is quite large and consists of choice realty in and about San Mateo and Burlingame.

Katherine Kenealley has applied in the superior court for letters of administration upon the estate of Martha Sullivan, who died at San Francisco on July 28, 1917. The estate consists of a house and lot in the Crocker tract valued at $1,250. The heirs at law are Thomas F. Sullivan husband and seven minor children, all of whom reside in San Francisco.

DIVORCE ACTIONS—

Martha Wallace, through her attorney, F. A. Reynolds ,has commenced divorce proceedings in the superior court against her husband, Samuel Wallace, owner of the "Bank" saloon at South San Francisco, on the ground of cruelty. The couple was married at San Francisco several years ago. They have no children. Mrs. Wallace asks for alimony in the sum of $50 a month and attorney fees in the sum of $75. The Wallaces are well-known in the north end of the county.

Judge Buck on Saturday last granted an interlocutory decree of divorce to Stella Locke from her husband, Martin H. Locke on statutory grounds. The custody of the two minor children was awarded to the plaintiff. She was also allowed the sum of $50 a month for the maintenance of herself and the children.

A Hallowe'en party, which was a party, was held in the Hall of the Nativity last Wednesday evening. Old fashioned dances, up to date dances, Hallowe'en games and charades, good music and lavish refreshments made the evening one long to be remembered by both young and old. Our soldier boys particularly had the time of their young lives. The affair was given by ladies and gentlemen of the Nativity parish who are responsible for the most delightful and home-like parties Thursday evenings in the Hall of the Nativity. Dancing and games and abundant refreshments without further charge feature these weekly affairs and make them by far the most popular social evenings, particularly for our guests in khaki.

PROMINENT MENLO RESIDENT IS DEAD

Early yesterday morning this community was shocked to learn of the death of William Casey Sr., a pioneer resident of the county and well-known in this locality.

His death was sudden, although for the past few days he had been ailing but his family did not feel alarmed at this. He called his children about him early yesterday morning and in a few minutes passed away. The end was painless.

Mr. Casey's sudden death is a severe shock to his family and friends. Mr. Casey had been a resident of San Mateo county for fifty years, the greater portion of which had been spent in Mnlo Park. Away back in the early seventies Mr. Casey was the gardener for Col. Jack Hayes, after whom Hayes Valley in San Francisco is named. Hayes maintained a palatial residence at Atherton and there entertained lavishly in early days. There Mr. Casey met many of the prominent politicians of those times.

Mr. Casey had been engaged in active business for a number of years in Menlo Park up until his retirement several years ago.

He was a genial, jovial man, well-liked for his many virtues and good traits of character.

He was a native of Ireland, aged 75 years. His young manhood was passed in the eastern states. He came to California in the sixties.

The funeral will take place Monday morning at 9 o'clock at home, thence to the Church of the Nativity where a requiem mass will be celebrated for the repose of his soul. Interment is to be in Holy Cross Cemetery, Menlo Park.

Mr. Casey's wife predeceased him a number of years ago. He is survived by the following sons and daughters: Mrs. George Morelock, a resident of San Francisco; W. T. Casey, Miss Frances Casey and Miss May Casey, Menlo Park and George Casey, Palo Alto.

PIONEER HOTEL MAN ANSWERS DEATH CALL

Thomas Fitzgerald, the pioneer hotel man and prominent in the political affairs of the county for a number of years, passed away at his home at Ravenswood late Wednesday evening following an illness of two years. Mr. Fitzgerald suffered a stroke of paralysis two years ago and never recovered from the shock, in fact he began sinking from that time and of late had been very sick.

Mr. Fitzgerald was born in County Kildare, Ireland, 68 years ago. He came to America at an early age locating at Boston. Coming to San Francisco in the early seventies he engaged in the livery business with success. He afterwards purchased the Millbrae hotel which he conducted until 1895 when he leased the Oak Grove Villa at Menlo Park, afterwards purchasing the property. Mr. Fitzgerald was an expert caterer and conducted this well-known resort up until two years ago when he was compelled to give up active business owing to the poor condition of his health and retired to his ranch.

Mr. Fitzgerald was a good business man and had by thrift and wise investments accumulated a snug fortune.

He was generous to a fault, giving liberally to all worthy causes. Mr. Fitzgerald was a true friend, a kind neighbor, a loving father and an affectionate husband. Many will mourn for him and will regret his passing. His jovial manner has brought sunshine to countless numbers, his generosity has been felt in many homes and his kind words and advise has lifted burdens from those in distress.

In his palmy days Mr. Fitzgerald weilded quite a power in political affairs of the county and in democratic circles. his advice was often sought.

The funeral will take place from his residence at Ravenswood this morning at 9 o'clock. A requiem high mass is to be celebrated at the Church of the Nativity at 9:30 o'clock. Interment will be in Holy Cross Cemetery, Menlo Park.

Besides his wife, Mr. Fiztgerald is survived by a son, James Fitzgerald ,who holds a responsible position with the board of harbor commissioners of San Francisco, and a daughter, Mrs. Bessie O'Grady of San Mateo.

RED CROSS BRANCH AT MENLO

Menlo Park is now a branch of the great American Red Cross. The first annual meeting of the branch was held at the public school house in Menlo Park on October 26th. All Menlo folks were invited to attend through a poster which appeared on the bulletin board at the post office several days before the meeting. Mrs. John Mitchell of Palo Alto, who founded the work in Menlo, called the meeting to order.

Mrs. Delancey Lewis was elected chairman with Mrs. E. B. Mahoney as vice-president. The other officers elected were as follows: Mrs. Jos. A. Donohoe, Mrs. Perry Eyre, Mrs. Eli Wiel and Miss Susie Gale.

It was decided to have the headquarters for the branch at the Red Cross Cottage on Middlefield road. The work at the various circles will continue as usual, with the difference that they will apply to the Red Cross Cottage for their materials instead of to Palo Alto as heretofore.

The needs of the Red Cross are becoming more urgent and every one in the community ought to take an interest in the work. Either take sewing home to do, or come help at the school house, or rectory, or Red Cross Cottage. A very live branch ought to accomplish considerable work.
